

AMENDMENTS TO CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) A rotating and reversing mechanism for an LCD display mainly comprising an LCD display and a CD player, in which the LCD display has a display screen, an audio outlet, and control buttons, the CD player consists of an upper casing and a lower casing outfitted with an access slot, a CD reader, and associated circuit, in which the upper casing provides some control buttons too, ~~of which the major characteristics are~~ said mechanism comprising:

the lower end of the joint post ~~is being~~ inserted into the connecting holes on one rim of the upper and lower casings of the CD player, and locked with a screw permitting the CD player to rotate at a limited angle, and the upper end of the joint post ~~is being~~ inserted into a semi-circle cavity of the LCD display and locked with a pin in the LCD display permitting a 360° reversal of the LCD display.

2. (Currently Amended) The rotating and reversing mechanism for the LCD as claimed in the Claim 1, in which the lower casing of the CD player provides several hanging holes on a corner that can be hooked on the hooks on ~~the a~~ hanging frame to form a vertical display screen.

3. (Currently Amended) The rotating and reversing mechanism for the LCD as claimed in ~~the Claims 1 and Claim~~ Claim 2, in which the hanging frame is a thin panel in the same size as the CD player with end hooks corresponding to the hanging holes on the lower casing for hanging the CD player on the hanging frame and the hanging frame also provides several posts on the rim for fastening the CD player with a bolt or a ~~the~~ double faced adhesive foam tape.
